

Boundless Outdoors

Where the adventure begins.

The great outdoors, designed for you

Boundless Outdoors has become the premier provider of outdoor education and field studies in the West Midlands. With both centres set in the picturesque area of Worcestershire, groups get to experience the great outdoors on their doorstep.

While classroom learning tends to concentrate on academic development, we offer the chance for pupils to acquire enduring skills for life outside - team work, communication, problem-solving, making new friends and having fun along the way. Our focus on these areas also instils confidence, self-awareness and self-esteem in all our groups.

Safety matters

At Boundless Outdoors safety is our first priority. To put your mind at ease we hold an **AALS** Licence and quality marks from **Adventure Mark**, **LOTG** and **AHOEC Gold**. We are regularly inspected by Activity National Governing Bodies and are certified with Public Liability Insurance.

Safety is of paramount importance and we are assessed to the highest standards. Extensive safety procedures and systems are in place to ensure that all participants get the most out of their experience in our rigorously risk assessed environment. However, whilst rigorous in our approach to safety, we aim to provide a challenging environment where people can enjoy outdoor learning as part of their overall development.

Our centre values

Trusted

A key element throughout life. The groups will not only learn to use and trust the equipment but also each other. Once trust is developed with the group the outcomes are far higher and bring greater learning to the individual.

Nurturing

With all our activities we build the groups understanding and knowledge around the subject. We not only aim for students to develop a greater understanding about the environment they are in but the people they are with as well.

Passionate

We are passionate about everything we do. We help individuals to reach their potential and then try to beat it. We aim to teach young people to try their hardest and never give in.

Inspiring

Learning is a lot more engaging if it is fun and exciting. All our activities have these elements along with a little sprinkle of adrenaline thrown in for good measure.

Sleeping over at Bell Heath

Bell Heath is set in 20 acres of secluded woodland grounds with accommodation for up to 72 students in our main house and additional space on the camp site. To ensure the best residential experience for visitors all our accommodation is sole occupancy meaning no other schools will be sharing your space.

Main block: Consisting of 72 beds set in a classic single storey building. There are 9 dormitory style rooms sleeping 8 in each room.

Campsite: Our large 10 man tents are ideal for spending a first night away under canvas.

Additional needs: Groups that have users with additional needs can be accommodated with easy access throughout the building with disabled showers and toilets. We have hydraulic beds to make life easy.

Staying at Malvern

Our Malvern Centre is set in 9 acres of secluded woodland grounds, with accommodation for up to 100 students, split into 3 separate areas within the site. To ensure the best residential experience for visitors we aim to keep groups together within their own accommodation block and not share facilities with other groups.

South block: consists of 56 beds set in a classic single storey building.

North Block: is a modern style brick building with 44 beds and its own dedicated common room and skittles alley.

Our Chalet: features disabled access and accommodates smaller groups of up to 18 people. Our Scandinavian style wooden-built chalet is set on one level and also includes disabled toilet and shower facilities.

Activities

With a wide range of activities on offer we can tailor make a visit for you. Do you have a specific topic at school you want to include? **Not a problem.**

Have a group that require adapted activities? **Not a problem.**

Our experienced staff team bring knowledge and energy to every session, and make sure the group achieves its maximum potential.

National Curriculum Activities for Primary School

With a wide range of activities to help support learning we have more on offer than climbing and zip wires.

Malvern has a rich history starting 500 million years ago with the formation of the hills. With **Fossil hunting** to **Iron age battles** to **Victorian medicine** we can add some zing to history lessons.

Secondary School Activities

DofE Bronze: With 2 campsites based on the Malvern and Clent Hills that are ideal for Bronze Expeditions.

STEM: Bring science to life and get the class engaged with learning. From measuring speed down our zip wire to building a raft to float the team.

Well being and personal development: At both centres we are able to offer a range of exciting activities aimed at well-being and personal development. From team building to canoe river trips we have a selection of great days everyone will gain something from.
